03 FEATURES

WHY IT WORKS

01 **LCD display**

Shows the set point and the current water temperature.

02 **2.8 kW heating**

Suits small above ground pools and inflatable spas.

03 **In line fitting**

Connects between the filter pump and the return.

04 **Push button control**

No guessing with a dial, set the degree you want.

SITE REQUIREMENTS

Check the kit

Lay out the heater, two hoses, adapters, clamps and seals and match them to the parts list.

SUPPLIED WITH THE ITEM

Level spot and socket

Set the heater level on the deck beside the spa with a covered, earthed outdoor socket nearby.

YOU SUPPLY

Connect the hoses

Attach the hoses to the spa or pool inlet and outlet and tighten the clamps.

YOU, OR TECHNICIANS AT A QUOTED CHARGE

Drain and clean

Drain, wipe and dry the heater before storing it at the end of the season.

YOU SUPPLY

07 PLEASE NOTE

ABOUT OUR PRICES

Made to your brief. Most of the range, and every project item, is fully customisable: size, shape, materials, finish, capacity and features are set to your requirement.

Prices are tentative and for guidance only. They are not an offer and not a final price.

Costs move with the world. Pricing depends heavily on international raw material prices and the USD to INR exchange rate. In the present geopolitical climate, freight, labour charges, the cost of living and taxes are all changing quickly, and prices change with them.

A firm price comes in writing. JumpKing issues a binding quotation only after understanding your full requirement: size, shape, quality, safety standards, location, budget, complexity and time frame.

Taxes as applicable on the date of supply. GST and any other taxes are charged at the rates in force when the goods and services are supplied.

Supplied by specialist manufacturers. JumpKing plans, designs and delivers. Photos, drawings and specifications are indicative; warranty is as per the manufacturer's terms.
