WHY IT WORKS

01 **Enclosed net walkway**

Side and top nets keep everyone inside, with no harness needed.

02 **High capacity**

Many guests can play at once, so queues stay short.

03 **Fits in nature**

Can be built between trees or poles with little ground work.

04 **Inspected and tested**

Net tension and anchors are checked before handover.

04 PLANNING

SITE REQUIREMENTS

Site and anchor survey

We check the trees or post positions and soil to fix the anchor points.

YOU AND JUMPKING

Erection and net tensioning

The installation crew sets the poles, runs the cables and tensions the nets.

JUMPKING

Safety inspection

Every anchor, cable and net joint is checked and load tested before opening.

JUMPKING

Staff and rescue training

Your attendants learn daily checks, guest rules and how to help a child down.

07 PLEASE NOTE

ABOUT OUR PRICES

Made to your brief. Most of the range, and every project item, is fully customisable: size, shape, materials, finish, capacity and features are set to your requirement.

Prices are tentative and for guidance only. They are not an offer and not a final price.

Costs move with the world. Pricing depends heavily on international raw material prices and the USD to INR exchange rate. In the present geopolitical climate, freight, labour charges, the cost of living and taxes are all changing quickly, and prices change with them.

A firm price comes in writing. JumpKing issues a binding quotation only after understanding your full requirement: size, shape, quality, safety standards, location, budget, complexity and time frame.

Taxes as applicable on the date of supply. GST and any other taxes are charged at the rates in force when the goods and services are supplied.

Supplied by specialist manufacturers. JumpKing plans, designs and delivers. Photos, drawings and specifications are indicative; warranty is as per the manufacturer's terms.
