03 FEATURES

WHY IT WORKS

01 **Right height**

Made for above ground pools with walls about 3 ft high.

02 **A-frame design**

Steps on both sides, so you climb up, over and down.

03 **Non-slip feet**

Rubber caps grip the ground and protect the liner.

04 **Easy assembly**

Bolts together at home with a spanner and screwdriver.

SITE REQUIREMENTS

Check every part

Lay out the side frames, treads, top platform and bolts and match them to the parts list before you start.

SUPPLIED WITH THE ITEM

Level firm base

Set the ladder feet on flat pavers or a level patch at the pool wall and check it with a spirit level.

YOU SUPPLY

07 PLEASE NOTE

ABOUT OUR PRICES

Made to your brief. Most of the range, and every project item, is fully customisable: size, shape, materials, finish, capacity and features are set to your requirement.

Prices are tentative and for guidance only. They are not an offer and not a final price.

Costs move with the world. Pricing depends heavily on international raw material prices and the USD to INR exchange rate. In the present geopolitical climate, freight, labour charges, the cost of living and taxes are all changing quickly, and prices change with them.

A firm price comes in writing. JumpKing issues a binding quotation only after understanding your full requirement: size, shape, quality, safety standards, location, budget, complexity and time frame.

Taxes as applicable on the date of supply. GST and any other taxes are charged at the rates in force when the goods and services are supplied.

Supplied by specialist manufacturers. JumpKing plans, designs and delivers. Photos, drawings and specifications are indicative; warranty is as per the manufacturer's terms.
